DETAILED ACTION

Allowable Subject Matter

Claims 1-5, 13-15, and 36-41 are allowed.

The following is an examiner's statement of reasons for allowance: The combination of Bartlett and Murayama does not disclose nor suggest that the first and second filter elements have at least two adjustable parameters selected from gain, frequency, bandwidth, and filter shape and a single control to make concurrent, predetermined changes to the at least two adjustable parameters. The use of a signal control is the novel feature in view of the cited prior art references. As a result, independent claims 1, 5, and 13 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brian T. Pendleton whose telephone number is (571) 272-7527. The examiner can normally be reached on M-F 7-4:30.
